

IT training classroom/ IT-Schulungsraum „MIK MED 03.152“ Krankenhausstr. 12, 91054 Erlangen

- Use the building entrance that leads directly into the **Cafeteria im Alten Universitätskrankenhaus** (“North entrance”). If you use another entrance, locate the cafeteria on the ground floor. **This is important!**
- With the entrance door behind you, walk approximately three meters and take the **staircase on your right up to the 3rd floor**.
- On the 3rd floor, exit the staircase through the **glass door on your right**.
- Walk straight ahead until you find the (normally locked) glass door entrance of the MIK. On the left-hand side you will see the door that leads directly into the IT training classroom “**MIK MED 03.152**”.
 - If the room is locked, please ring the bell.

Important:

- **Elevator:** An elevator is available approximately 10 meters from the cafeteria entrance, on your left. Take it to the 3rd floor and follow the same directions.
- **Access Point:** Not all corridors in the building are publicly accessible. **If you use the wrong staircase to get to the third floor you may end up standing in front of a locked door, with no access to the area where the IT training classroom is located.** In that case, please return to the ground floor and search for the **staircase next to the cafeteria**.
